A stimulating time for all*

Once again the HMA is proud to announce the forthcoming AGM & Seminar and we look forward to meeting our old and new members alike.

This year's seminar will allow you to listen to renowned and eminent speakers, Dr Torako Yui (Japan), Dr Luc De Schepper (USA) and Dr Raj Bains (UK) in a relaxed and pleasant atmosphere.

Places for the seminar are strictly limited, and demand is likely to be high, so make sure you reserve your place.

There will be a wide array of exhibition stands for you to browse at your leisure. If you would like more information about exhibition space – please contact the office on 01474 560336.
